

The Foreign Embassy

The Foreign Embassy specialises in creative and communal feasts. Whether it's a seafood banquet, a decadent buffet or a rustic feast over fire, we work together with you to create a memorable, sociable and delicious meal. Food is a crucial element of your big day and we know that one size doesn't fit all. We believe that every occasion is different and deserves a meal tailored to it. So we work with you to discover your tastes, your style and how you want the day to feel.

It could be based on anything from memorable meals in your relationship to local produce from our beautiful area. From Middle Eastern sharing platters to modern British plates. From black tie to no cutlery.

We've previously created a Dickens feast at Bleak House, a pirate barbecue on the beach, a celebration of the sea at the harbour-side Home for Smack Boys and a vegetarian tasting menu at the Italianate Glasshouse. So we're open to anything and always excited about trying something new.

Every detail matters on your wedding day, so our tables are also dressed for the occasion. We love to give them a personal touch. So tell us your favourite flowers, colours and fabrics and we'll come back with a proposal to make sure the table looks as good as the food tastes.

It goes without saying that we can take any dietary requirements into account. We're very happy to provide vegetarian, vegan, dairy-free and gluten-free alternatives, in addition to accommodating any allergies.
